

JOB LISTINGS – Current Hourly Job Openings in Tulsa at Spirit AeroSystems

- **Processor 5E** **\$11.00/hr - \$23.93/hr**
Check sheet metal parts for completeness of operations and apparent suitability for submittal to company inspection. Layout locations and apply identification marks to surfaces using machine, electro-chemical etching and/or manual methods. Make and set up screens and perform screen printings on parts and decals. Surface treat ferrous and non-ferrous metals by cleaning, pickling, etching, bonderizing, chromodizing, passivating, Parkerizing, degreasing, and stripping processes. **Requisition ID 2019-4262**
- **Machining Deburr Technician** **\$11.00/hr - \$22.74/hr**
Perform the manual and clerical duties involved in receiving, storing, coding, stocking, disbursing and shipping material, supplies and equipment. Layout locations and apply identification marks to surfaces using machine, electro-chem etching and/or manual methods. Remove burrs, sharp edges and cracks by use of various hand and power burring equipment and setup and operate roto finish equipment to grind, deburr, descale, polish and hone by wet abrasive process, ferrous and nonferrous machine parts, sheet metal details and extrusions. **Requisition ID 2019-4218**
- **Structures Installation Mechanic 4D** **\$13.00/hr - \$26.35/hr**
Assemble and mate structural parts and assemblies using riveting or portable resistance welding equipment, hand tools, and non CNC Drivmatic type machines. Drill, route, ream, countersink, spot face, and counter bore machined parts, using templates, drill plates, jigs or pilot holes. Install and functionally check Mechanical, hydraulic, and/or pneumatic operating mechanisms and plumbing systems of aircraft, space vehicles, missiles, ground support equipment and electronic chassis structural parts and assemblies. Will Train. **Requisition ID 2019-4215**
- **Painter Processor** **\$13.00/hr - \$26.35/hr**
Paint Company products, aircraft or their assemblies and parts. Perform various processing, coating application, plating, and parts identification and polishing, along with the repair and minor assembly in the manufacture of company products. **Requisition ID 2019-4054**
- **Bonder D** **\$13.00/hr - \$26.35/hr**
Set up and operate automated machines which perform reciprocating material layup operations in connection with metallic/non-metallic composites fabrication and bonding. Set up and operate heat-pressure autoclaves having hydro-inert gas pressure and temperature systems to cure bonded or resin impregnated assemblies. Layout, fabricate, and adhesive bond parts and assemblies composed of metallic and non-metallic composite materials. Will train. **Requisition ID 2019-3805**
- **Structures Installation Mechanic D** **\$13.00/hr - \$26.35/hr**
Assemble, install, seal, rig, inspect, and complete precision and other structural and system components, working from engineering requirements, documents, process specifications, quality control requirements, and established processes and procedures. Perform functional test and correct, fit form and function of assemblies and components. Self direct assignments and work in team environments. Must be capable of consistently performing to established budgets, schedule and quality requirements as defined by the company. Will Train. **Requisition ID 2019-3737**
